SUMMARY OF OPPOSITION

The Court should deny Defendant's Motion for Stay on the grounds of a pending patent reexamination because (1) such a stay would most likely extend five years or more, creating a substantial likelihood of prejudice to Plaintiff; (2) the delay would prevent identification of any other proper defendants, who might then escape liability due to the passage of time; and (3) Defendant's counterclaim for declaratory judgment creates estoppel against Defendant's request for delay.

Defendant MOTOROLA, INC.’s (“Defendant”) Motion for Stay (Docket # 15) is largely duplicative of the motions for stay in several related cases¹, and Plaintiff’s general arguments against the propriety of a stay in those cases is applicable here and thus incorporated by reference². However, this Opposition contains data and details first described in case no. 07-CV-02321 (the “Energizer case”) that entirely change the landscape of the issue of stay requests on the ‘184 patent cases.

Since the filing of the first few related oppositions to motions for stay, Plaintiff has learned that the approximate duration of patent reexaminations has dramatically increased in recent years from an average of 18-23 months as cited in prior arguments to the Court, to a duration likely to be closer to five years than to two years

Because of this new data, a litigation stay pending reexamination completely undermines the entire original purpose of the reexamination process – to allow a prompt forum for review of the validity of a patent. It also undermines the intent and purpose of the Local Patent Rules for streamlined patent litigation.

¹ *Sorensen v. Black & Decker Corporation, et al*, Case No. 06-cv-1572, *Sorensen v. Giant International, et al*, Case No. 07-cv-02121, and *Sorensen v. Helen of Troy, et al*, Case No. 07-cv-02278

² See *Request for Judicial Notice* for docket numbers.

The required balancing of the parties' interests weighs in favor of no more than a partial stay of proceedings, if that. The partial stay should at least allow initial discovery and motion practice up to the point of briefing for a Markman hearing to continue.

FACTUAL SUMMARY

Procedural Posture. On March 24, 2008, Defendant filed the pending Motion for Stay.

Recent other filings of '184 patent infringement cases bring the total number of cases pending before this Court to 24.

Status of '184 Patent Reexaminations. Patent infringement defendant Black & Decker filed an Ex Parte Request for Reexamination of the subject '184 patent in July 2007 (“1st reexamination”) and, on that basis, obtained an order staying the related case, *Sorensen v. Black & Decker Corporation, et al.*, Case No. 06cv1572 (“Black & Decker Order”). Now, nine months later, no first office action for the 1st reexamination has yet issued, even though Plaintiff declined to file the optional patent owner’s statement, thereby denying Black & Decker the ability to file more documents with the USPTO, in order to shave approximately two months from the process. *Kramer Decl.* ¶ 4.

Co-defendants in the Black & Decker case - Phillips Plastics and Hi-Tech Plastics – waited until December 21, 2007 to file a second third-party reexamination request (“2nd reexamination”), which the USPTO has just recently accepted. *Kramer Decl.* ¶ 5.

Post-Black & Decker Stay PTO Data Analysis. Closer analysis of USPTO data show that the current, average timeframe for conclusion of a reexamination is approximately five years, extending longer if an appeal to the Federal Circuit is sought. *Kramer Decl.* ¶ 6.

The closer analysis of USPTO data that is explained herein was prompted by information obtained directly from or related to counsel for the Black & Decker defendants, the origin of the derailing of the '184 litigation.

The February 2008 issue of the San Diego Intellectual Property Lawyers Association (“SDIPLA”) contained a reference to a newsletter from Hal Wegner, partner at Foley & Lardner, the law firm representing Black & Decker case defendants Phillips Plastics and Hi-Tech Plastics. The reference states as follows:

The 1/5/08 email [from Hal Wegner] states that today the average ex parte reexamination takes about 5 years (vs. the PTO's claim that it takes 2 years). If an appeal to the CAFC is involved, that extends the period to 7.7 years.

Kramer Decl. ¶ 16.

Ms. Kramer attempted to get a copy of the underlying email from Mr. Wegner directly, however, Mr. Wegner responded that he did not keep copies of such emails.

Kramer Decl. ¶ 17.

The fact of lengthy reexaminations is also well-known to the Niro Scavone firm that represents Black & Decker. The oft-reported U.S. Patent No. 5,253,341 “JPEG patent,” owned by a client of Niro Scavone, emerged from a seven-year reexamination just days prior to the filing of Black & Decker’s reexamination request of the ‘184 patent. A new reexamination has just been allowed of that very same JPEG patent, and corresponding motions for stay were filed in the ‘341 litigation that had been on hold for seven years. *Kramer Decl.* ¶ 18, and Exhibit F.

ARGUMENT

“A court is under no obligation to delay its own proceedings by yielding to ongoing PTO patent reexaminations, regardless of their relevancy to infringement claims which the court must analyze. [cites omitted]” *Fresenius Medical Care Holdings, Inc. v. Baxter International, Inc.* 2007 WL 1655625 (N.D. Cal. 2007).

1 “There is no *per se* rule that patent cases should be stayed pending
2 reexaminations, because such a rule ‘would invite parties to unilaterally derail’
3 litigation.” *Soverain Software LLC v. Amazon.Com, Inc*, 356 F.Supp.2d 660, 662
4 (E.D.Tex.2005), quoted in *Fresenius, supra*.

5 Defendants are trying to derail this litigation by essentially arguing *per se*
6 entitlement to a stay based upon the *Black & Decker* stay. That argument fails
7 because updated information regarding the average duration of reexaminations
8 challenges the assumptions under which that stay was issued and warrant a closer
9 examination by the Court.

10 I. DEFENDANT’S REQUEST FOR STAY SHOULD BE DENIED BECAUSE
11 THE FACTS ARE DISTINGUISHABLE FROM THE *BLACK & DECKER*
12 CASE.

13 The court is not required to stay judicial resolution of a patent case in view of
14 reexaminations, rather the decision to stay is within the discretion of the Court.
15 *Viskase Corp. v. American Nat. Can Co.*, 261 F.3d 1316, 1328 (Fed. Cir. 2001).

16 A court must weigh the parties competing interests as presented by the specific
17 facts of the case at bar. *Jain v. Trimas Corp.*, 2005 WL 2397041, at *1 (E.D. Cal.
18 Sept. 27, 2005) (emphasis added).

19 This motion is materially different from the *Black & Decker* situation upon
20 request for stay in at least two respects: (1) the Court now has more accurate
21 information regarding the expected duration of reexamination proceedings; and (2)
22 there was no extensive delay between initial contact by the Plaintiff and filing of this
23 suit.

24 Issuance of a stay that will likely extend approximately five years, longer than
25 the time that the parties have even been in communication, is excessive.

1 II. PLAINTIFF WOULD BE UNDULY PREJUDICED AND TACTICALLY
 2 DISADVANTAGED BY A STAY.

3 A new analysis based on USPTO statistical data shows that the likely duration
 4 of an *ex parte* reexamination proceeding is closer to five years, not two. Such a
 5 lengthy stay undermines the congressional intent for implementation of the
 6 reexamination process, and also undermines the Local Patent Rules. Furthermore,
 7 this extensive delay would prejudice the Plaintiff through inability to identify and
 8 serve all appropriate defendants and inability to locate and preserve necessary
 9 evidence and record witness testimony.

10 Thus, Plaintiff would be unduly prejudiced and subjected to a clear tactical
 11 disadvantage by a complete stay of this case pending completion of two *ex parte*
 12 reexamination proceedings before the USPTO.

14 A. *Ex Parte* Reexaminations Can Be Expected to Extend for Five Years or
 15 More, Rather than 18-23 Months.

16 Defendant's Motion for Stay relies on this Court's order to stay the related
 17 '184 patent infringement case against Black & Decker. The Black & Decker Order
 18 was based on statistical data from the USPTO's office that has since been shown to
 19 be obsolete, in that it reflects an average of all reexamination activity since 1981, and
 20 ignores the huge increase in reexamination backlog that has occurred over the past
 21 six years.

22 1. *A closer look at USPTO data shows the current length of*
reexamination proceedings to be far longer than 23 months.

23 In the Black & Decker motion for stay, the moving parties pointed to a June
 24 2006 statistical report from the USPTO that listed average pendency of
 25 reexaminations to be 22.8 months, and median pendency to be 17.6 months³ ("2006

26
 27
 28 ³ See *Judicial Notice*, Docket #180, Exhibit B, from *Black & Decker* case.

1 Report"). This was a material factor in the Court's decision to stay that case.⁴
 2 However, closer examination of the USPTO's raw data shows a remarkably different
 3 picture of the duration of reexaminations than the 2006 Report suggests.

4 The 2006 Report is based upon averages over the entire 28-year course of the
 5 existence of reexamination proceedings, since 1981. What the 2006 Report does not
 6 show is the dramatic increase in filings relative to the number of certificates issued
 7 (which signal the end of the reexamination proceeding) over the past few years.

8 USPTO Annual Reports contain statistics on the number of *ex parte*
 9 reexamination filings, the number of those that are known to be related to litigation,
 10 the number of *ex parte* reexaminations granted, and the total number of certificates
 11 issued. The official website contains annual reports back to 1993 which contain this
 12 statistical data back to 1989. *Kramer Decl.* ¶ 7, Exhibit A.

13 By comparing the incoming reexamination filings vs. the outgoing certificates,
 14 a pattern of dramatically increasing backlog appears. Assuming a zero carryover
 15 from 1988 into the 1989 figures for which records are available, the backlog of *ex*
 16 *parte* reexaminations has increased more than 100-fold from 1989 to the end of 2007
 17 (from 16 to an estimated 1,658). *Kramer Decl.* ¶ 8, Exhibit B.

18 If the PTO were able to keep issuing certificates at the rate of the highest
 19 number of reexamination certificates ever issued in a single year, 367, and have zero
 20 new filings, it would still take approximately 4.5 years for the PTO to erase the
 21 backlog of *ex parte* reexaminations. *Kramer Decl.* ¶ 9. If the rate of certificate
 22 issuances were at the average for the past five years (250), it would take 6.6 years to
 23 erase that same backlog. *Kramer Decl.* ¶ 10.

24
 25
 26 ⁴ See *Judicial Notice*, Docket #243, page 7:19-22, in the *Black & Decker* case: "An
 27 average delay for reexamination of approximately 18-23 months is especially
 28 inconsequential where Plaintiff himself waited as many as twelve years before bringing the
 present action. (See PTO Reexamination Statistics at Ex. B to Niro Decl.; Doc. #180-3.)"

The impact of this newly analyzed USPTO data extends beyond the realization that reexaminations are extending for longer and longer periods of time. Five-plus year long reexaminations (1) undermine the legislative policy underlying creation of the reexamination process in the first place; and (2) undermine this District's efforts to streamline and expedite intellectual property cases through newly implemented Local Patent Rules; and (3) render older case law on the subject of litigation stays pending reexamination inapplicable.

2. *Five-plus year reexaminations undermine congressional intent for use of the reexamination process.*

The express congressional intention was that reexamination should “provide a useful and necessary alternative for challengers and patent owners to test the validity of United States patents in an efficient and relatively inexpensive manner.” H.R. REP. No. 96-1307 pt. 1, at 4 (1980), *reprinted in* 1980 U.S.C.C.A.N. 6460-6463.

All reexamination proceedings under this section, including any appeal to the Board of Patent Appeals and Interferences, are to be conducted with “special dispatch.” 35 U.S.C. § 305.

As demonstrated above, efficiency and “special dispatch” have not proven to be the case in recent years. To the contrary, the filing of reexaminations has become an effective weapon to slow down or stop patent infringement plaintiffs. This is not only demonstrated by numerous articles recommending this strategy to infringement defendants,⁵ but it is also demonstrated by the USPTO’s own information. *Kramer Decl.* ¶ 11.

The USPTO was already commenting on problems keeping pace with these increased litigation related filings in 2004, even though the estimated backlog was still less than 800 at the end of 2003. *Kramer Decl.* ¶ 12. In fact, the frequent use of multiple reexamination requests by litigants to further delay of the litigation fueled a

⁵ See *Kramer Decl.* Exhibit D.

1 PTO rule change in 2004 changing the standard of review for second or subsequent
2 reexamination requests.

3 These statistics are not a disparagement of the PTO's efforts. It is a
4 recognition that the recent increase in reexamination filings have overwhelmed the
5 staffing and capabilities of the PTO. The increase has made the statutory mandate of
6 "special dispatch" a meaningless phrase.

7 *Ex parte* reexamination requests known to be related to litigation have soared
8 from a mere 9% in 1990 to 57% for 2007. In fact, the frequent use of multiple
9 reexamination requests fueled a USPTO rule change in 2004 changing the standard
10 of review for second or subsequent reexamination requests.

11 The "Notice of Changes in Requirement" document (see *Kramer Decl.* ¶ 13,
12 Exhibit C) made the following statement in the Background section:

13
14 It has been the Office's experience, however, that both patent owners
15 and third party requesters have used a second or subsequent
16 reexamination request . . . to prolong the reexamination proceeding, and
17 in some instances, to turn it essentially into an *inter partes* proceeding.
18 These actions by patent owners and third party requesters have resulted
19 in multiple reexaminations taking years to conclude, thus making it
20 extremely difficult for the Office to conclude reexamination
proceedings with "special dispatch" as required by statute (35 U.S.C.
305 for *ex parte* reexamination, 35 U.S.C. 314 *inter partes*
reexamination).

21 Even though the USPTO was having problems completing reexaminations
22 with "special dispatch" in 2004, the sheer volume of increased filings since then
23 demonstrate an even larger problem now. This turns what was intended to be an
24 efficient, timely process into an almost guaranteed strategy for delay in patent
25 litigation.

26 3. *Lengthy reexamination proceedings also undermine the intent of*
27 *the Local Patent Rules.*

1 In 2006, this Court adopted and implemented a set of Patent Local Rules with
 2 the stated purpose of providing a predictable and uniform treatment for IP litigants
 3 and streamline the process by which a patent case is litigated, shortening the time to
 4 trial or settlement and thereby reducing costs for all parties involved. The new rules
 5 set up a schedule where a claim construction hearing would be held approximately
 6 nine months after the complaint is filed, and trials set at approximately 18 months
 7 after complaints are filed. *Kramer Decl.* ¶ 14.

8 Judge Dana M. Sabraw, who chaired the committee that established the new
 9 patent local rules, said: “A majority of the judges of the Southern District are firmly
 10 committed to holding claim construction hearings within nine months for the filing
 11 of the complaint, and to setting a trial date within 18 months of that filing.” *Kramer*
 12 *Decl.* ¶ 15, Exhibit D.

13 None of these purposes and intents can be met when an infringement
 14 defendant can file an *ex parte* reexamination request and receive an almost automatic
 15 multi-year exception from the timeline set out in the Local Rules.

16 While district judges are working to streamline and expedite patent cases, the
 17 USPTO’s statutorily-required “special dispatch” procedure has been getting slower
 18 and slower.

19 The net effect in this case and the related ‘184 infringement cases is that two
 20 carefully timed *ex parte* reexamination have been relied upon to deny Plaintiff the
 21 ability to enforce its valid patent.

22 4. *Caselaw supporting liberal grants of litigation stays pending the*
 23 *completion of reexamination proceedings are inapposite.*

24 It is no surprise that so many *ex parte* reexamination requests are flooding the
 25 USPTO. These filings have become an oft-used weapon by patent infringement
 26 defendants because litigation stays are routinely granted pending conclusion of
 27 reexamination. In 1990, the percentage of *ex parte* filings that were known to be

1 related to litigation was a mere nine percent (9%). By 2007, after a host of
2 publications had pushed reexamination as a litigation strategy for defendants, the
3 percentage had increased more than six-fold to 57%.

4 The *Black & Decker* Order was based on legal opinions that either predated
5 the recent dramatic increase in filings and consequent backlog of cases, or opinions
6 that relied on that same outdated factual scenario.

7 The issue in the *Ethicon* case was whether the PTO could stay a reexamination
8 pending completion of a court case, not the other way around. The *Ethicon* court did
9 cite *Gould v. Control Laser Corporation*, 705 F.2d at 1342, 217 USPQ at 986, for
10 the proposition that the court had authority to order a stay pending conclusion of a
11 PTO reexamination. What the *Gould* decision actually said was that “power already
12 resides with the Court to prevent costly pretrial maneuvering which attempts to
13 circumvent the reexamination procedure.” (emphasis in original). Plaintiff has done
14 nothing here or in related cases trying to circumvent the reexamination procedure.

15 The ““liberal policy’ in favor of granting motions to stay pending the outcome
16 of PTO reexamination proceedings” (Docket #243, page 5:19-21) came from the
17 1994 case of *ASCII Corp. v. STD Entertainment USA, Inc.*, 844 F.Supp. 1378, 1381
18 (N.D. Cal. 1994). A close look at that decision reveals a statement by the court that
19 “it is clear from the cases cited by the parties that there is a liberal policy of granting
20 stays pending reexamination,” but does not directly cite to any particular case.
21 Furthermore, even if the Court had evaluated the approximately length of
22 reexamination proceedings in 1994 (there is no indication that it did), it would have
23 shown that the USPTO was effectively handling its caseload, issuing almost as many
24 certificates in a year as new requests that were being accepted. A liberal policy of
25 granting motions to stay pending the outcome of reexamination proceedings was
26 fully appropriate in 1994. That is no longer the case.

1 *Photoflex Products, Inc. v. Circa 3 LLC*, No. C 04-03715 JSW, 2006 U.S.
 2 Dist. LEXIS 37743, at *2-3 (N.D.Cal. May 24, 2006), also relies on the
 3 misconstrued *Gould* case, and the outdated *ASCII* case, as did the other cases.

4 None of the cases cited in the *Black & Decker* order appear to give any
 5 consideration whatsoever to the relative length of time that the reexamination will
 6 take. In more recent cases, however, Courts are beginning to acknowledge the
 7 extended duration of reexamination proceedings and are exercising their inherent
 8 authority to not stay proceedings pending reexaminations that can take years to
 9 complete.

10 A court is under no obligation to delay its own proceedings by yielding
 11 to ongoing PTO patent reexaminations, regardless of their relevancy to
 12 infringement claims which the court must analyze. *See id.* (“The
 13 [district] court is not required to stay judicial resolution in view of the
 14 [PTO] reexaminations.”); *see also Medicem, S.A. v. Rolabo, S.L.*, 353
 15 F.3d 928, 936 (Fed.Cir.2003) (“[O]n remand, a stay of proceedings in
 16 the district court pending the outcome of the parallel proceedings in the
 17 PTO remains an option within the district court’s discretion.”) (stated in
 18 the context of reissue proceedings for interfering patents before the
 19 Board of Patent Appeals and Interferences); *Patlex Corp. v.
 20 Mossinghoff*, 758 F.2d 594, 602-03 (Fed.Cir.1985) (recognizing judicial
 21 discretion in stay determinations for patent proceedings).

22 *NTP, Inc. v. Research in Motion, Ltd.*, 397 F.Supp.2d 785, 787 (E.D.Va.2005).
 23 (2005).

24 The *NTP* court was adamant that it was not going to stay litigation based upon
 25 the moving party’s unfounded speculation that the patent would soon be invalidated.

26 The likely duration and result of the PTO’s reexamination proceedings
 27 and any subsequent (and likely) appeals are in dispute. RIM, turning a
 28 blind eye to the many steps that must still be taken before a final
 determination can be issued by the PTO and confirmed, suggests that
 the patents-in-suit will be invalidated in a matter of *months*. NTP, on the
 other hand, insists on the likelihood of the opposite result and gives a
 reality-based estimated time frame of *years*. Regardless of which party’s

1 predictions this Court might adopt, any attempt at suggesting a likely
 2 time frame and outcome of the PTO reexamination process is merely
 3 speculation. This Court cannot and will not grant RIM the extraordinary
 4 remedy of delaying these proceedings any further than they already
 have been based on conjecture.

5 *Id.*

6 Further, the case of *Blackboard, Inc. v. Desire2Learn, Inc.* Civil Action No.
 7 9:06-CV-155 (E.D. Texas, 2008), recently proceeded to plaintiff's verdict despite ex
 8 *parte* and *inter partes* reexaminations that had been ordered 13 months previous in
 9 which no office actions had been issued.

10 Other cases have reaffirmed that district courts are not obligated to issue stays,
 11 including *MercExchange, L.L.C. v. eBay, Inc.*, 500 F.Supp.2d 556, 562, 83
 12 U.S.P.Q.2d 1688 (E.D.Va. Jul 27, 2007).

13 Because the re-analyzed USPTO data show that the 1st reexamination on the
 14 '184 patent is likely to not be complete for approximately 5 years from its filing, and
 15 because the 2nd reexamination has the potential to introduce even further delay in the
 16 completion of reexamination proceedings, a stay pending reexamination by the
 17 USPTO should not be granted.

18 B. Plaintiff Would Be Prejudiced Through The Inability To Identify and
 19 Serve All Proper Defendants.

20 As detailed more fully in the previously filed related oppositions to motions
 21 for stay, Fed.R. Civ.P, Rule 15(c), places limitations on a party's ability to amend
 22 pleadings to add or substitute parties, and places restrictions on when such
 23 amendments relate back to the date of the initial filings. Inability to identify
 24 responsible parties inhibits the ability to give those parties notice of the case, thereby
 25 increasing the chance that they will claim prejudice later, and increasing the
 26 likelihood that other parties will destroy or dispose of critical evidence.

27 A complete stay of litigation before any preliminary steps are taken to identify
 28 proper parties and ensure initial discovery or preservation of evidence greatly

1 prejudices the Plaintiff and may well prejudice the entire judicial process in this case.

2 3 **C. Plaintiff Would Be Prejudiced Through The Loss Of Evidence.**

3 4 The Federal Rules of Civil Procedure do not expressly impose a duty to
5 preserve evidence. Courts have construed the federal discovery rules, particularly
6 Rule 26, to imply a duty to preserve all evidence that may be relevant in a case. *See*
7 *Danis v. USN Communs, Inc.*, 2000 U.S. Dist. LEXIS 16900 at *4-5.

8 9 The obligation to preserve arises when the party has notice that the
10 evidence is relevant to litigation -- most commonly when the suit has
11 already been filed, providing the party responsible for the destruction
with express notice, but also on occasion in other circumstances, as
for example when a party should have known that the evidence may
be relevant to future litigation.

12 12 *Treppel v. Biovail Corp.*, 233 F.R.D. 363, 371 (2006).

13 13 If a complete stay is issued, there is no assurance that parties (whether parties
14 to the suit or otherwise) will have knowledge of any obligation to preserve evidence,
15 and in the case of third-party suppliers would actually have a disincentive to preserve
16 evidence.

17 17 A preservation order protects the producing party by clearly defining the
18 extent of its preservation obligations. *Id.* at 370. “In the absence of such an order,
19 that party runs the risk of future sanctions if discoverable information is lost because
20 [the party] has miscalculated.” *Id.* Further, “[preservation] orders are increasingly
21 routine in cases involving electronic evidence, such as emails and other forms of
22 electronic communication.” *Id.* at 370. Because the duty of preservation exists
23 without a court order, some courts are reluctant to grant motions to preserve
24 evidence. *See Madden v. Wyeth*, 2003 U.S. Dist. LEXIS 6427.

25 25 Plaintiff needs to have an opportunity to conduct at least preliminary
26 discovery and request a detailed preservation order, otherwise it will be subjected to
27 substantial prejudice as a result of a stay.

1 Motions to stay pending patent reexamination have been denied where the
 2 likely length of reexamination will serve to exacerbate the risk of lost evidence. In
 3 *Telemac Corp. v. Teledigital, Inc.*, 450 F.Supp.2d 1107, 1111 (N.D.Cal. 2006). That
 4 is very much the situation here.

5

6 **III. DEFENDANT IS JUDICIALLY ESTOPPED FROM SEEKING A STAY IN**
 7 **LIGHT OF ITS COUNTERCLAIM FOR DECLARATORY RELIEF AND**
ITS ASSERTION OF LACHES.

8

9 Defendant has asserted in its Rule 11-governed responsive pleading a
 10 counterclaim under the Declaratory Judgment at 28 USC §§ 2201 *et seq.* and has also
 11 claimed an affirmative defense of laches.

12

13 Parties “are bound by admissions in their pleadings, and a party cannot create
 14 a factual issue by subsequently filing a conflicting affidavit.” *Hughes v. Vanderbilt*
University 215 F.3d 543, 549 (6th Cir., 2000) *citing Reid v. Sears, Roebuck & Co.*,
 15 790 F.2d 453, 460 (6th Cir.1986).

16

17 “Factual assertions in pleadings and pretrial orders, unless amended, are
 18 considered judicial admissions conclusively binding on party who made them.”
American Title Ins. Co. v. Lacelaw Corp., 861 F.2d 224, 226 (9th, Cir. 1988) The
 19 *American Title* Court further observed that: “Judicial admissions are formal
 20 admissions in the pleadings which have the effect of withdrawing a fact from issue
 21 and dispensing wholly with the need for proof of the fact.” *In re Fordson*
Engineering Corp., 25 B.R. 506, 509 (Bankr.E.D.Mich.1982). Factual assertions in
 22 pleadings and pretrial orders, unless amended, are considered judicial admissions
 23 conclusively binding on the party who made them. *See White v. Arco/Polymers,*
 24 *Inc.*, 720 F.2d 1391, 1396 (5th Cir.1983); *Fordson*, 25 B.R. at 509.

25

26 “[A]lthough the rule smacks of legalism, judicial efficiency demands that a
 27 party not be allowed to controvert what it has already unequivocally told a court by

1 the most formal and considered means possible.” *Soo Line R. Co. v. St. Louis*
 2 *Southwestern Ry.*, 125 F.3d 481, 483 (7th Cir. 1997)

3 “[T]he purpose of the Declaratory Judgment Act in patent cases is to provide
 4 the allegedly infringing party relief from uncertainty and delay regarding its legal
 5 rights.” *Sony Electronics, Inc. v. Guardian Media Technologies, Ltd.* 497 F.3d 1271
 6 (Fed.Cir. 2007) quoting *Goodyear Tire & Rubber Co. v. Releasomers, Inc.*, 824 F.2d
 7 953, 956 (Fed.Cir.1987) (emphasis added).

8 Further, the *Sony* Court noted that the U.S. Supreme Court had stated in its
 9 decision in *MedImmune, Inc. v. Genentech, Inc.*, --- U.S. ---, 127 S.Ct. 764, 771 166
 10 L.Ed.2d 604 (2007) that the test of a declaratory judgment claim for relief is whether
 11 “there is a substantial controversy, between parties having adverse legal interests, of
 12 sufficient immediacy and reality to warrant the issuance of a declaratory judgment.”
 13 quoting *Aetna Life Ins. Co. v. Haworth*, 300 U.S. 227, 240-1, 57 S.Ct. 461, 81 L.Ed.
 14 617 (1937) (emphasis added).

15 The allegations in Defendant’s counterclaim, rely upon the Declaratory
 16 Judgment Act, and thus are judicial admissions that Defendant claims that its legal
 17 rights are of “sufficient immediacy” that it needs “relief from . . . delay regarding its
 18 legal rights.”

19 Laches is an equitable defense of which the necessary elements are: (1) the
 20 filing of the suit was delayed for an unreasonable and inexcusable length of time;
 21 and (2) the delay operated to the prejudice or injury of the defendant. *Aukerman Co.*
 22 *v. R.L. Chaides Constr. Co.*, 960 F.2d 1020, 1028 (Fed.Cir. 1992).

23 Defendant’s allegations of entitlement to a defense of laches is a judicial
 24 admission that Defendant believes there is sufficient basis to claim that the delay in
 25 bringing suit prejudiced or delayed Motorola.

26 If this matter is urgent to Motorola, and if Motorola claims to have already
 27 been prejudiced by delay, why do they want a stay?

1 Defendant's formal admission that they are entitled to "relief from delay" and
 2 have already been prejudiced by delay cannot be overcome by Defendants simply by
 3 filing a motion and declaration asserting the opposite position.

4 Because Defendants are barred by their judicial admissions from seeking a
 5 stay in light of their declaratory relief request for relief from delay, Defendant's
 6 request for stay must be denied.

7 **IV. DEFENDANT IS NOT ENTITLED TO FEES AND COSTS FOR ITS**
 8 **MOTION TO STAY EVEN IF IT PREVAILS.**

9 There are no legal grounds supporting Defendant's request for attorney fees
 10 and costs because Plaintiff would not stipulate to an open-ended stay of this case.

11 Defendant's sanction request was based on its meritless assertion that because
 12 of the Court's previous statements in other '184 patent cases, Plaintiff should be
 13 sanctioned for refusing to stipulate to a stay in this case, stating that the Courts
 14 provision of protections in its recent stay orders somehow deprived Plaintiff of the
 15 right to oppose a stay.

16 Each motion for stay must be evaluated on its own merits. *Jain v. Trimas*
 17 *Corp.*, 2005 WL 2397041, at *1 (E.D. Cal. Sept. 27, 2005). The Court's prior
 18 history of granting stays in related cases does not deprive Plaintiff of the right to
 19 make a good faith opposition to new motions for stay from other parties in other
 20 cases.

21 Further, if Plaintiff were to stipulate to stays, it could be construed as agreeing
 22 with the assertion that a stay is appropriate. Plaintiff does not agree with that
 23 assertion. Plaintiff will not take the risk of waiving any of its rights, nor will it take
 24 the position that a stay of this case pending reexamination is appropriate.

25 Plaintiff has made a good faith and reasonable decision to oppose the
 26 requested stay, and such a decision is not a viable basis for an award of fees or costs.
 27 Defendant's request for fees and costs should be denied.

CONCLUSION

There is no *per se* rule that patent cases should be stayed pending reexamination. The perception of such a rule has invited parties such as Defendants to move for stay on the sole grounds that someone else's reexamination request is pending before the USPTO.

A complete stay on all aspects of all '184 patent cases is not appropriate as this Court has recently confirmed in its orders on Helen of Troy/OXO and Giant's motions for stay.

Plaintiff has now presented the Court will newly analyzed USPTO data that change the entire framework in which the Court enter stays in the three earliest '184 patent case stays. This warrants a new look and new balance of the equities involved in the requested stay.

Because the new data shows that a litigation stay pending reexamination completely undermines the entire original purpose of the reexamination process, as well as the Local Patent Rules, and would act to prejudice the Plaintiff in numerous respects, the Court should deny the requested stay.

RESPECTFULLY SUBMITTED this Thursday, April 24, 2008.

JENS ERIK SORENSEN, as Trustee of
SORENSEN RESEARCH AND DEVELOPMENT
TRUST, Plaintiff

Attorneys for Plaintiff

1 PROOF OF SERVICE
2

3 I, Melody A. Kramer, declare: I am and was at the time of this service working within in
4 the County of San Diego, California. I am over the age of 18 year and not a party to the within
5 action. My business address is the Kramer Law Office, Inc., 9930 Mesa Rim Road, Suite 1600,
6 San Diego, California, 92121.

7 On Thursday, April 24, 2008, I served the following documents:
8

9 **OPPOSITION TO DEFENDANT'S MOTION TO STAY PENDING OUTCOME OF
10 REEXAMINATION PROCEEDINGS**

11 **DECLARATION OF MELODY A. KRAMER IN SUPPORT OF OPPOSITION TO
12 DEFENDANT'S MOTION TO STAY PENDING OUTCOME OF REEXAMINATION
13 PROCEEDINGS**

14 **REQUEST FOR JUDICIAL NOTICE IN SUPPORT OF OPPOSITION TO
15 DEFENDANT'S MOTION TO STAY PENDING OUTCOME OF REEXAMINATION
16 PROCEEDINGS**

17 PERSON(S) SERVED	18 PARTY(IES) SERVED	19 METHOD OF 20 SERVICE
21 HOGAN & HARTSON L.L.P. Rachel M. Capoccia. 1999 Avenue of the Stars, Suite 1400 Los Angeles, California 90067 Telephone: (310) 785-4600 Facsimile: (310) 785-4601 rmcapoccia@hhlaw.com	22 Motorola, Inc.	23 Email - Pleadings Filed 24 with the Court via ECF
25 Eric J. Lobenfeld 875 Third Avenue New York, New York 10022 Telephone: (212) 918-3000 Facsimile: (212) 918-3100 ejlobenfeld@hhlaw.com	26 Motorola, Inc.	27 Email - Pleadings Filed 28 with the Court via ECF

29
30 (Personal Service) I caused to be personally served in a sealed envelope hand-delivered
31 to the office of counsel during regular business hours.
32
33 (Federal Express) I deposited or caused to be deposited today with Federal Express in a
34 sealed envelope containing a true copy of the foregoing documents with fees fully
35 prepaid addressed to the above noted addressee for overnight delivery.
36
37 (Facsimile) I caused a true copy of the foregoing documents to be transmitted by
38 facsimile machine to the above noted addressees. The facsimile transmissions were
39 reported as complete and without error.

1

2 (Email) I emailed a true copy of the foregoing documents to an email address
represented to be the correct email address for the above noted addressee.

3

4 (Email--Pleadings Filed with the Court) Pursuant to Local Rules, I electronically filed
this document via the CM/ECF system for the United States District Court for the
Southern District of California.

5

6 (U.S. Mail) I mailed a true copy of the foregoing documents to a mail address
represented to be the correct mail address for the above noted addressee.

7

8 I declare that the foregoing is true and correct, and that this declaration was executed on
9 Thursday, April 24, 2008, in San Diego, California.
